INTERRUPTIBLE TRANSPORTATION SERVICE

APPLICABLE TO THE USE OF SERVICE FOR:

The Company will control the dispatch of such gas, and dispatch will be provided as requested by the Customer, in accordance with General Information Section 4.C. of this Schedule, provided, however, that acceptance of the Customer's application will be conditioned upon the availability of the Company's system capacity.

DELIVERY PRICE: (Per Month) The Delivery Charge that appears on the customer's bill is the sum of the per therm rate plus the Make-Whole Rate.

SPECIAL PROVISIONS - ALL CUSTOMERS: (CONT'D)

- H. The Company shall communicate daily with each interruptible customer facility location via email, text messages, fax or phone call. See the Company's GTOP Manual for specific details. Additionally, the Company shall communicate with each interruptible customer facility location at the end of every interruption to remind customers to replenish alternate fuel inventories as needed to maintain minimum levels.

Non-Compliance Charge: A penalty assessed to an Interruptible customer when the Company becomes aware either by notification from a customer or by inspection, in accordance with Special Provision C, that a customer is currently incapable of interrupting and switching to their alternate fuel, and an interruption has not been called.

The Non-Compliance Charge shall be:

- (b) 130% of the applicable Interruptible transportation rate for interruptible transportation customers.

If a customer notifies the Company that they are currently incapable of interrupting and switching to their alternate fuel due to circumstances outside of the customer's control, the customer must resolve the issue within 10 calendar days or the Company shall begin assessing the Non-Compliance Charge. If the Company becomes aware that a customer is currently incapable of interrupting and switching to their alternate fuel through an on-site inspection, the Company shall begin assessing the Non-Compliance Charge the following day.

The Non-Compliance Charge shall be assessed until the customer notifies the Company that they are now capable of interrupting and switching to their alternate fuel and the correction has been verified by Company personnel through an on-site inspection.

A Two-Violation Interruptible customer, defined below, shall also be subject to a Non-Compliance Charge for all gas consumed from the time of the second violation until the end of the current winter period.

If the Company calls for an interruption and the Customer fails to interrupt as required, the Company shall impose the Unauthorized Use Charge set forth in Special Provision A, in lieu of the Non-Compliance Charge, for unauthorized gas usage during the interruption period. Following the interruption, the Company may resume imposing the Non-Compliance Charge through the end of the current winter period.

- J. Failure to interrupt the use of gas during an interruption shall be counted as a violation under the Two-Violation Rule.

 - a. If a customer's second failure to interrupt occurs within 48 hours of an initial violation, the second failure shall not be considered a second violation. If a failure to interrupt is due to failure of Company-owned equipment that is not attributable to the customer, the failure to interrupt shall not be considered a violation.

SPECIAL PROVISIONS - ALL CUSTOMERS: (CONT'D)

- J. Failure to interrupt the use of gas during an interruption will be counted as a violation under the Two-Violation Rule. (Cont'd)
2. A customer's failure to interrupt its use of gas due to inoperable dual-fuel facilities (excluding, for purposes of this paragraph, associated Customer-installed phone lines) counts as a violation towards the above-described two-violation rule except as follows:
 - a. During each Winter Period, a customer's failure to interrupt the use of gas during a planned interruption due to documented inoperable dual-fuel facilities shall not be counted as a violation provided that the Customer
 - i. notifies the Company within one hour of the failure of its equipment;
 - ii. repairs and makes operable its dual-fuel equipment within forty-eight (48) hours of the equipment's failure; and
 - iii. provides the Company with an affidavit or other sufficient documentation that it has repaired and made operable its dual-fuel equipment and immediately complies with the earlier of the ongoing interruption or a separate planned interruption.
 - b. The Company will extend the 48-hour repair deadline to a period not to exceed seven (7) days provided the Customer demonstrates to the Company's satisfaction that such extension was necessary due to the unavailability of a part and its installation during such 48-hour repair period.
 - c. All three conditions must be satisfied for this exception to the two-violation rule to apply. During the 48-hour repair period, or, if applicable, the extended 7-day repair period, the Customer will be subject to applicable unauthorized use charges, an alternate fuel or energy non-compliance charge, minimum charges and imbalance charges as set forth in this Service Classification, the Company's GTO, or this Rate Schedule.
 - d. If during the Winter Period, a customer interrupted the use of gas, as required, during the first planned interruption, then the customer will be granted an additional one-time waiver subject to the customer meeting all of the requirements detailed in this section. A distillate fuel supply shall be considered on-hand and adequate if the supply is either: (a) on-site and sufficient to meet a minimum of 10 consecutive days requirements; or (b) if Customers physical facilities are insufficient to provide for a 10 day supply, then the Customer must: (i) have a full distillate fuel tank(s); and (ii) provide verification, to the Company's satisfaction, of alternative fuel supplies, other than spot market purchase of distillate fuel that, in combination with (a), provides for a 10 day supply.

A Customer that refuses to permit the Company to inspect its facilities shall have one Business Day to allow the Company to perform its inspection.
