

Save on summer fun!

Find details on our pool equipment rebate offers of **\$300 on a qualifying pool pump** and **\$100 on a qualifying pool heater**.

Pool heater FAQs

Does my pool heater need to be ENERGY STAR® certified to qualify?

No, ENERGY STAR certification is not required to get a rebate.

How can I find the kBtu rating?

Most kBtu ratings can be found in the model number. For example, a Pentair MasterTemp 250 would be 250,000 Btus.

What can I do if I'm not sure my pool heater qualifies for a rebate?

When you apply, submit a picture of your pool heater's nameplate that clearly shows its model number.

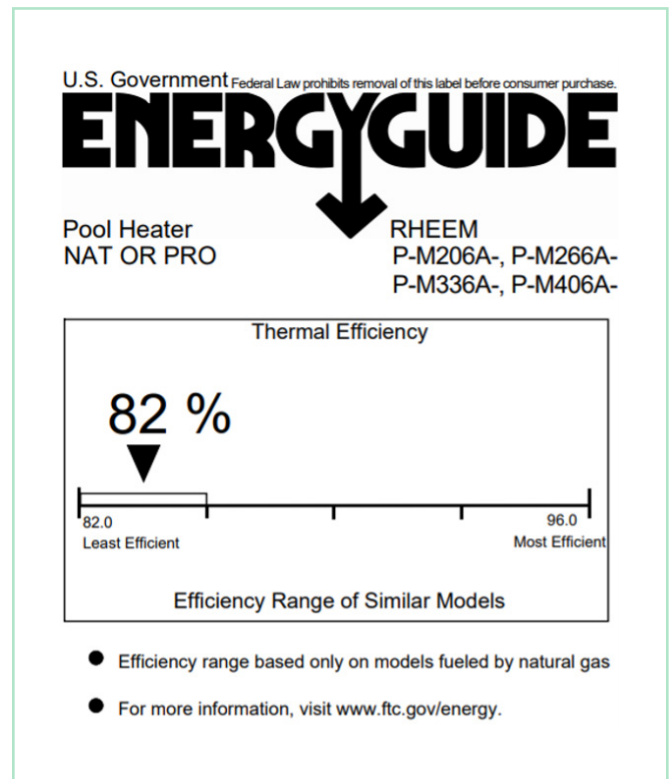

Questions

Contact us at **855.846.2982**.

How do I find my pool heater's efficiency rating?

Each pool heater has an EnergyGuide label, which lists its thermal efficiency rating.
