2019 Local Transmission Plan Update

Paul Didsayabutra
Manager, Transmission Planning (New York)

Background & Scope of this Presentation

- In November 2019, Avangrid presented its Local Transmission Plan (LTP) in an ESPWG meeting
 - Statuses of 29 projects were reported
 - Included 6 projects from the BES program
- This presentation provides an update regarding the status of 1 project
 - Station 122 relay upgrade (RG&E)
 - Status: In Construction
 - Expected In-Service Date: 2020

LTP Update: RG&E

Project	Summary	Status	In-Service Date
Station 122 Relay Upgrade	Upgrade relays on 345kV lines S122-Clay1 and S122-Clay2	Proposed In Construction	TBD 2020
